

**Policy on Secondary Students Going Overseas to Study**

**5305**

It is the policy of the Blue Hill School Committee to treat a resident Blue Hill secondary student who is enrolled in an approved AFS International Program for study in a foreign country in the same manner, for tuition purposes, as a student enrolled in a regular secondary program. The School Committee will pay up to the state average secondary tuition, excluding the insured value factor, to AFS on behalf of such student on the condition the student is attending school full-time while abroad.

Adopted: Blue Hill School Committee -
