

**Union 93
Local Assessment System**

The Superintendent or designee(s) will be responsible for designing and implementing a local assessment system that will be used to guide and enhance classroom instruction, monitor student progress, and certify student achievement. The system will be developed and refined with extensive input from teachers and administrators.

Data that certifies student achievement will be provided to individual students and their parents/guardians. Summarized data will be presented in a way that conveys school and school unit performance on the standards of the Maine Learning Results and allows for comparison to statewide Maine Educational Assessment performance. This data will be provided to students, parents, teachers/professional, staff administrators, and the community.

Data will be reviewed annually by the Union 93 school board and the boards of member districts: Blue Hill, Brooksville, Castine, and Penobscot.

The Superintendent of Schools shall develop appropriate regulations to implement this policy.
