

**Statement Concerning School Sponsored Activities on Sundays**

School children are programmed by schools and related school activities so tightly that there is little time left for family and individual interest. Given this fact, the Blue Hill School Committee strongly discourages school sponsored activities to occur on Sundays.

The school committee supports activities and considers them to be an integral part of learning and believe those activities can be carried on during the weekdays and on Saturdays.

If emergencies and other unforeseen circumstances arise, the school committee recognizes activities may have to occur on Sundays.

Sunday school sponsored activities under emergency and/or other circumstances, should be pre-approved by the school committee or their designee.

Accepted: Blue Hill School Board - September 12, 1990
